

FOR IMMEDIATE RELEASE

Scott Nelson, the President of Security & Risk Management Group, LLC (SRMG), to Moderate Panel at 2006 InfraGard National Conference

Los Angeles, CA, May 31, 2006 - Scott Nelson, the president of SRMG, will join Chief William Bratton of the Los Angeles Police Department (LAPD); Drug Enforcement Administration (DEA) Administrator Karen Tandy; Kevin Donovan, the United States attorney for New Haven, Connecticut; Joe Concannon, the president of the New York City Metro InfraGard Alliance; and other law enforcement/security experts at the 2006 InfraGard National Conference as the moderator of a panel discussing the global impact of crime gangs on the private sector. The conference will take place August 22 – 24 in Washington, D.C.

InfraGard is a Federal Bureau of Investigation (FBI) program that began in the Cleveland field office in 1996 as a local effort to gain support for the FBI's investigative efforts in the cyber arena from the information technology industry and academics. The FBI expanded the program to other FBI field offices and assigned national responsibility for it to the former National Infrastructure Protection Center (NIPC) in 1998 and then to the Cyber Division in 2003. InfraGard and the FBI have developed a relationship of trust and credibility in the exchange of information concerning various terrorism, intelligence, criminal, and security matters.
